## English Proficiency Guidelines for International Students Effective on October 1, 2014

Subiaco Academy's international students come to Subiaco for a variety of reasons: strong academics, structured environment, and 100% acceptances to top colleges and universities. We have established levels of proficiency necessary at each grade level in which we are confident a student can succeed academically. We require one of the following English proficiency tests along with the application. Please remember that these are guidelines that are considered along with other evaluations. We provide an ESL program to help international students improve English skills.
