English Proficiency Guidelines for International Students

Effective August 2017

Subiaco Academy attracts most of the international students to study here for a variety of reasons: safe and healthy environment, rigorous academics, and 100% acceptance to American top colleges. We have established levels of English proficiency necessary at each grade level in which we are confident that a student can succeed academically. We require one of the following English proficiency tests along with the application. Please remember that these are guidelines that are considered along with other evaluations. We provide an ESL program to support international students and enhance their English skills.
